

# US Airports with Adult Changing Tables

(updated 5/26/23)

At latest count, 27 U.S. airports now have adult changing spaces. Most feature a hydraulic fold-down table located in a large unisex/companion restroom. Three currently have a hoist system for transfers: MEM, MSP and ORD. The changing suite at ORD includes two showers as well, one standard and one transfer type. At three airports—BWI, PHX, PHL—the changing spaces have fixed benches that do not adjust in height.

ATL – Hartsfield-Jackson International Airport

AUS – Austin-Bergstrom International Airport

BNA – Nashville International Airport

BWI – Baltimore/Washington International Airport
